VISION

To be the leader of vertically integrated aluminium facade solutions provider in Indonesia.

MISSION

1. Quality above all else
2. Always do it the right way
3. On time delivery is a must
4. Be ready before the customer is ready.
5. Never stop learning

OUR DIVISIONS

- // POWDER COATING
- // METAL FRAME & SHEET WORKS
- // ALUMINIUM EXTRUSION
- // PROJECT
- // TRADING

Warna Asri Pelangi is our powder coating division, with capacity to produce up to 50,000 m2 of powder coated aluminium profiles per month.

Yearly audit and certification by JOTUN ensures that we only deliver the best quality of coating to our customers.

We produce custom railings and various custom hardware needed for our projects. We also make fire-rated emergency steel doors.

Alutama serves as our in-house extrusion company. Allowing us to have control over the supplies of profiles for our projects.

With production capacity of 600MT/month, we eliminate the possibility of any sort of delays on our material supplies.

Our trading division provides various aluminium and hardware needs for the use of a project.

We work together with our loyal customers to create a mutually beneficial process for every stakeholder.

We specialize in the manufacture and application of aluminium windows, doors and façade for various projects.

Our know-how and reputation has earned us a reputation as one of the best in the industry.

ALCONA

CORE STRENGTHS

INTEGRATED SUPPLY CHAIN

From manufacture of aluminium profiles, coating, making of custom hardware and installation. Alcona is able to provide a one stop solution for your project needs.

PRE-FABRICATED WORK

All our project works are Pre-assembled in our factory to minimise on-site operations. This saves time, waste, money, and in some cases, lives.

TIME MANAGEMENT

Being integrated means saving time. Our materials will be ready before you are.

CUSTOMER CENTRIC

We take our projects seriously. Therefore we always make sure that "we do it the right way". This means making sure that designs are reviewed to ensure they are technically sound and engineered correctly.

OUR PROJECTS
